

## F-5AC AC Adapter

- Output: DC 5V, 1500mA
- Power requirements: AC 100-240V, 50-60Hz

### Easy battery charge

This AC-adapter allows charging professional dictation devices, which can be docked in one of the docking stations CR21, CR15 or CR10. By this means the voice recorder can be charged faster than via a regular USB port at the PC and the PC does not need to be turned on for charging.

### Specifications

#### Technical Data

Input	AC 100 - 240V / 50/60Hz
Output	DC 5V / 1.5A

#### Dimensions

Width	32mm
Height	23mm
Depth	55mm
Weight	35g (excluding cable)
Cable length	1.5m (USB cable)
	1.5m (AC cable)

#### Environment

Temperature	0 - 40°C (operation) / -20 - 60°C (storage)
