Microsoft

five things that set DAX™ Copilot apart

When looking at the value of an AI-powered, ambient solution, consider who you are going to trust with such an important part of your business.

1

Experience and expertise

- 2+ decades of experience, 550K+ Dragon users

- Thousands of clinicians across hundreds of organizations rely on DAX Copilot every day

- Award-winning solution with proven outcomes

- Responsible AI framework and oversight

2

Strategic partnerships

- Longstanding joint development with EHR and technology partners

- Natively embedded into existing clinical workflows

- Expanded collaboration to develop generative AI use cases beyond voice and ambient documentation

3

Technological leadership

- Conversational, ambient and generative AI optimized for clinical settings

- Trained on 1B+ minutes of medical dictation annually and 15M+ ambient encounters and annotated notes for superior accuracy and speed

- Integrated with Dragon Medical One to automate clinical tasks and clinical notes, all from one vendor, on one platform

- Built on Microsoft Azure, the most trusted and comprehensive cloud for AI

- 600+ dedicated R&D professionals for continued innovation

- Part of Microsoft's extensive AI and copilot ecosystem to streamline and customize workflows for all employees

4

Scale

- For use across all ambulatory specialties, primary care, and emergency medicine

- Processes and dedicated teams in place to work with you to scale

- Clinician website with tips and best practices from other clinicians

- Marketing toolkit to drive organizational awareness, recruitment and adoption

5

Support

- Customer support organization with 3K+ members

- Dedicated team and coordinated support with EHRs

- 24/7 support via chat, email and phone

- HIPAA-compliant daily virtual room staffed by training consultants

- Comprehensive in-app training

DAX™ Copilot
Transform your clinical workflow.
